Figure 1 illustrates the 3D-CP decomposition of a 3D tensor. The figure shows a 3D tensor of size 19x19x19, decomposed into three 3D tensors of size 19x19x19, labeled 1, 2, and 3. The decomposition is shown as a 3D cube with three planes (1, 2, 3) intersecting at the origin. The planes are colored red, green, and blue. The 3D tensor is shown as a stack of 19 slices, with the first slice labeled 1, 2, 3. The 3D tensor is also shown as a stack of 19 slices, with the first slice labeled 1, 2, 3. The 3D tensor is also shown as a stack of 19 slices, with the first slice labeled 1, 2, 3.
